Cisco AnyConnect Installation Instructions

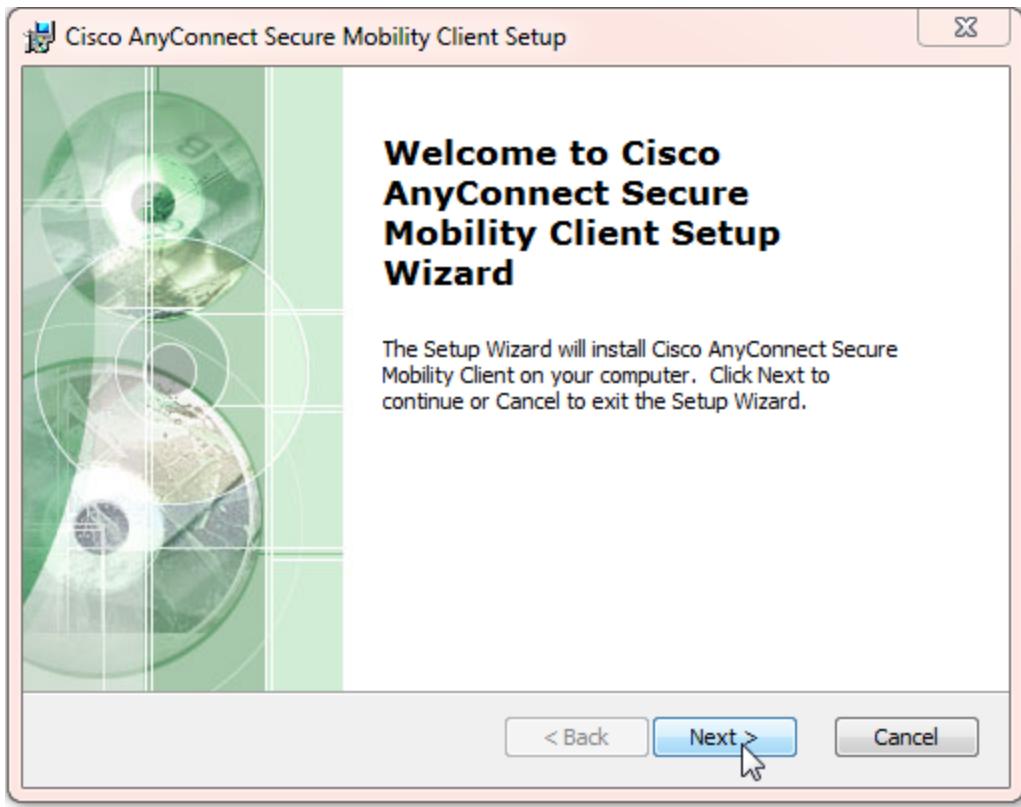

Windows Installation

Install AnyConnect

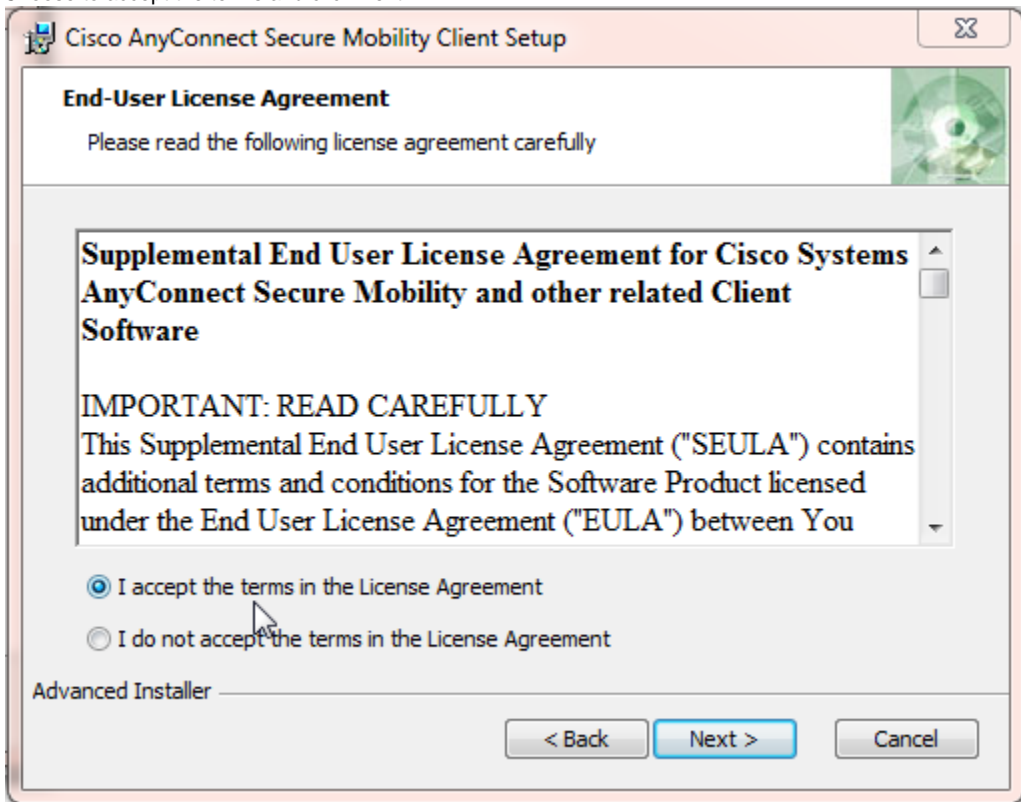

- Download the AnyConnect software here: [anyconnect-win-3.1.03103-web-deploy-k9.exe](#)
 - Run the installer

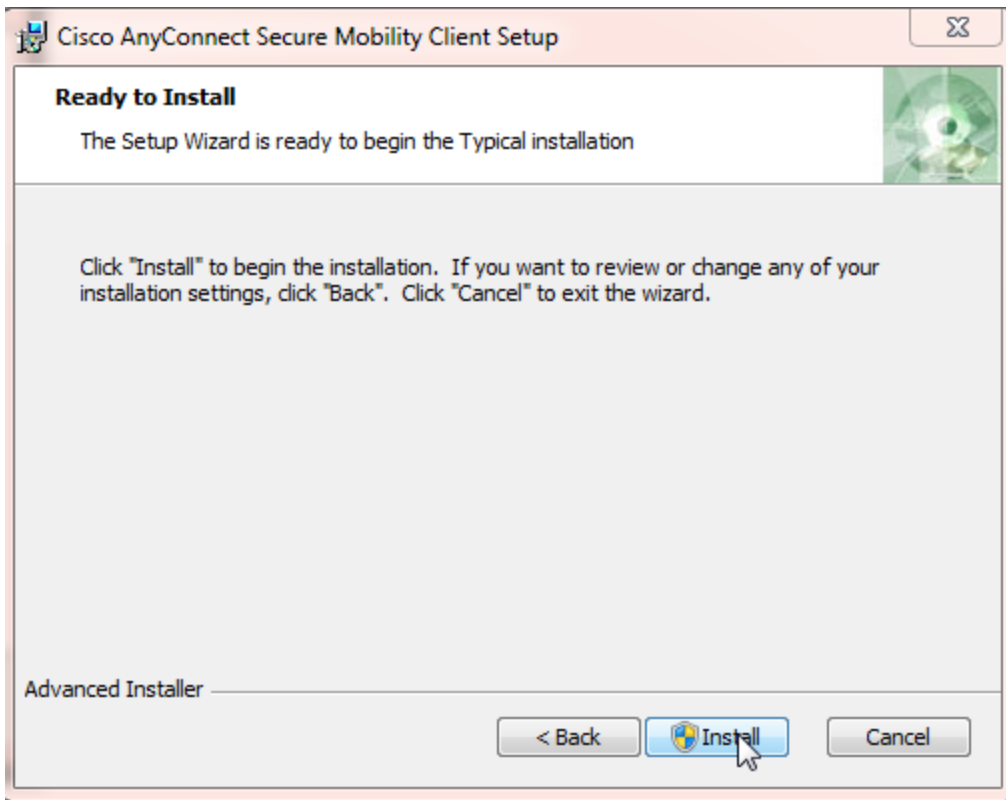

-
- Click Next

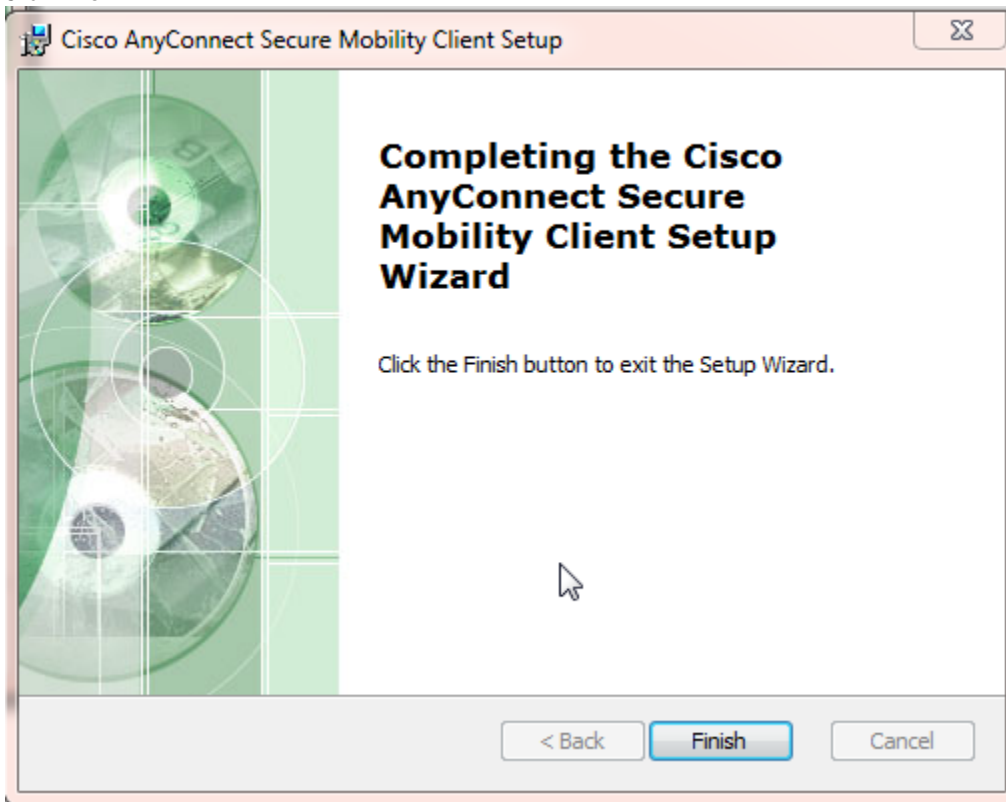

-
- Choose to accept the terms and click Next

-
- Click Install

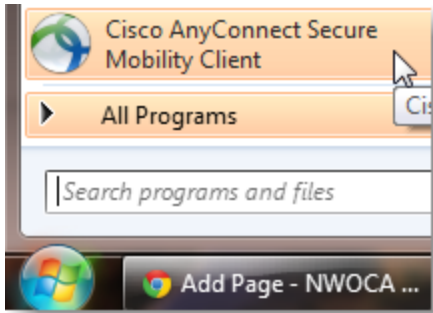

-
- Click Finish

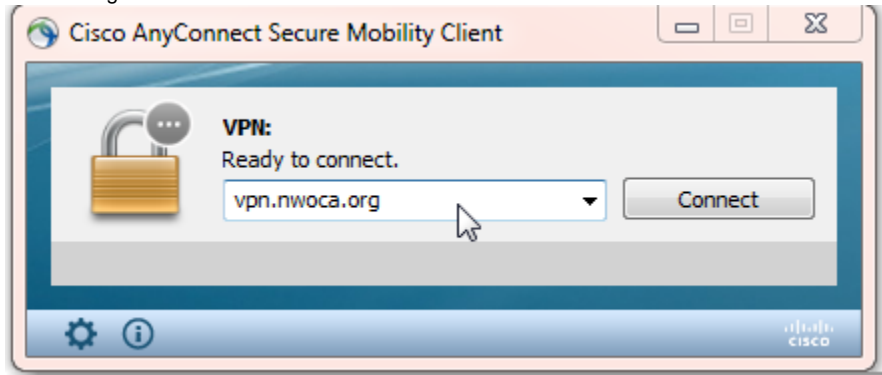

Launch AnyConnect

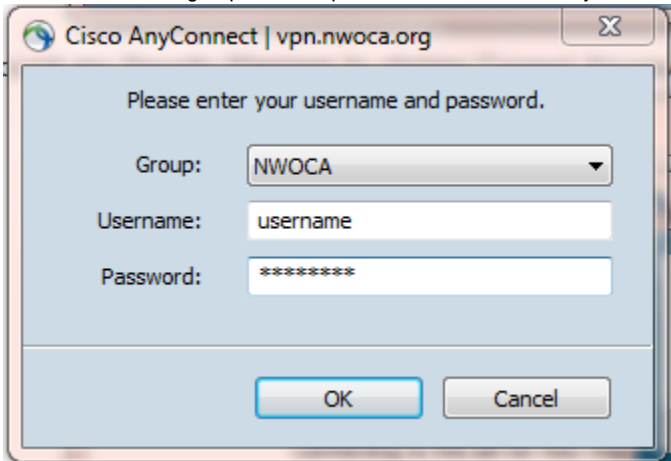

- Open AnyConnect from your Start Menu, after it is installed

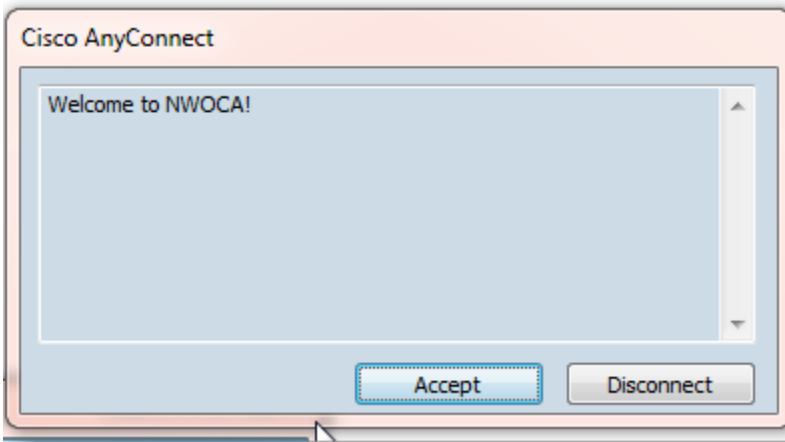

- Enter vpn.nwoca.org and click 'Connect'

- Choose the correct group from the pull-down menu and enter your name and password

- Click OK and choose to Accept

- You will receive a message in your task bar when connected

VPN Connected to vpn.nwoca.org
